

Network diagram showing interactions between 25 genes. The nodes are teal circles with gene names. The edges are gray lines representing interactions. The network is highly interconnected, with many nodes having multiple connections.

Genes shown: COL18A1, HSPG2, HLA-A, B2M, HLA-C, COL4A1, COL4, CCL21, SEMA3D, VWF, LAMB1, LAMA4, PRND, NID1, CALR, BSG, PDXP1, ARF1, PCP, CALM2, HMGB1, NID2, COL18A1, HSPG2.
